Grantees Booklet

The Fulbright Programme

The Fulbright programme of international educational exchange was an initiative of American Senator J. William Fulbright from Arkansas, who in the aftermath of World War II believed that mutual understanding between different countries and cultures was crucial to ensure a peaceful future for the world.

The Fulbright Act, an ingenious piece of legislation passed by the United States Congress in 1946, directed proceeds from the sale of surplus war property, foreign loan repayments and reparations to fund the “promotion of international good will through the exchange of students in the fields of education, culture, and science.”

In Senator Fulbright’s own words, the Fulbright programme aims “to bring a little more knowledge, a little more reason and a little more compassion into world affairs and thereby to increase the chance that nations will learn at last to live in peace and friendship.”

New Zealand was the fifth country to sign up to the Fulbright programme by bilateral treaty with the United States of America, in 1948. Since then Fulbright New Zealand has sent more than 1,400 New Zealand graduate students, artists, academics and professionals to the US and welcomed more than 1,100 Americans on exchanges here.

Fulbright New Zealand is jointly funded by the US and New Zealand governments with additional funding from award sponsors, private philanthropists and alumni donors. It is governed by a twelve member Board of Directors comprised of six New Zealanders and six Americans.

The Fulbright programme has been described as one of the largest and most significant movements of scholars across the face of the earth and now operates in over 150 countries, funding around 6,000 exchanges per year for participants to study, research and teach in another country.

The more than 300,000 Fulbright alumni worldwide include heads of state, cabinet ministers, ambassadors, politicians, judges, heads of corporations, university presidents, journalists, artists, professors and teachers.

Esteemed alumni of the Fulbright programme include Alan MacDiarmid, Dame Marie Clay, Sir Wallace Rowling, Allen Curnow, Dame Jean Herbison, Sir Kenneth Keith, C. K. Stead, Bill Manhire, Jamie Belich, Michael King, Witi Ihimaera, David Cunliffe and many other significant New Zealanders.

Fulbright grantees make the most of their exchanges to get to know and understand a different country and culture, to advance themselves academically or professionally and to make lifelong friendships and professional relationships. Many look back on their Fulbright exchange as a life-changing experience and a defining moment of their career.

Message from the Chairperson

On behalf of the Board of Fulbright New Zealand, congratulations to all of this year's grantees!

This is a very special year for Fulbright New Zealand as 2008 marks the 60th year of the Fulbright programme in New Zealand. I am confident that this year's grantees, as with so many of our 2,500-odd alumni from the previous 59 years, will find their Fulbright exchange experience to be truly life-changing and go on to make us all extremely proud with their achievements and contributions to their home countries and the wider world.

During 2007 the Fulbright New Zealand Board and staff worked together to develop a new five-year Strategic Plan for 2008-2012 with five broad goals to:

- Increase the opportunities for educational exchange;
- Provide an outstanding Fulbright experience;
- Strengthen the Fulbright network;
- Broaden the sphere of influence; and
- Demonstrate leadership and innovation.

We believe that this new plan will strengthen our ongoing commitment to honouring Senator J. William Fulbright's vision of increasing mutual understanding between our two countries through educational exchange.

We are committed to growing the New Zealand Fulbright programme and I would like to highlight our newest award, the Fulbright-Cognition Education Research Trust Scholar Award in Education Research, which was launched earlier this year in partnership with Cognition Education Research Trust (CERT) and will be presented for the first time at next year's ceremony.

We acknowledge the support of the New Zealand and American governments over the past six decades. I thank also the Ministry of Education, MoRST, EQC, Creative New Zealand and CERT for their sponsorship of additional awards, as well as the private donors and alumni who generously contribute to the programme with donations or their service on selection panels and as Fulbright Campus Advisers.

We hope that many alumni and others will join us in Auckland this November for our 60th Anniversary Conference, which will focus on "Creative Partnerships" between New Zealand and the US, celebrating the success of our programme and showcasing its many talented participants.

I wish all our new grantees the very best for your Fulbright exchange and onwards into the future.
